

Aluminum Frame Stage Deck

Product Information Sheet

For outdoor performances, rely on the durable and versatile StageRight Aluminum Frame Stage Deck.

For an indoor portable stage to outdoor performance stages, rely on the durable and versatile StageRight Aluminum Frame Stage Deck.

Aluminum Frame Stage Deck

Features and Benefits

Aluminum Frame

The aluminum support structure of these decks provide superb weather resistance, and a sound support for our interchangeable performance surfaces.

Flexible Surface Options

Choose from five surface options that best fit your staging requirements. Deck surfaces are interchangeable and can be replaced without having to purchase a new frame.

Versatile Use

Compatible with all StageRight support systems (with the same dimensions), and accepts all existing StageRight deck accessories. Although you can't do anything about the weather, you can be assured our Aluminum Frame Stage Deck system will stand up to the elements.

Accessories

Transportation Cart

Convenience and portability are trademarks of StageRight products. That's why we offer stage transportation carts that can be used for almost any one of our products. Rugged casters do not leave marks, helping you save on maintenance. Two swivel and two fixed casters provide positive directional control, making it easy to steer the cart.
